

Deodent

Liquid formula for eliminating bad breath in cats and dogs

Bad breath in cats and dogs means not only restriction of close contact between the master and the animal.

Bad breath is a very early symptom preceding pathological lesions and usually is a sign of intense development of bacterial flora.

The most common causes of bad breath in cats and dogs include:

- metabolic disorders and deficits of biologically active compounds
- salivary gland dysfunctions
- feeding with soft, sticky food

These disorders result in:

- intense proliferation of bacteria
- formation of dental calculus
- gingivitis
- periodontal pathologies

Thus, it is not only aesthetic, but also health reasons, that justify the need of prophylactic activities aiming at neutralisation of bad odours from the mouth of cats and dogs. Some

causes of bad breath may be easily eliminated by improving the oral hygiene of the animal

Deodent

by restricting the number of microorganisms and effect of fragrance, eliminates bad breath and prevents development of pathological lesions:

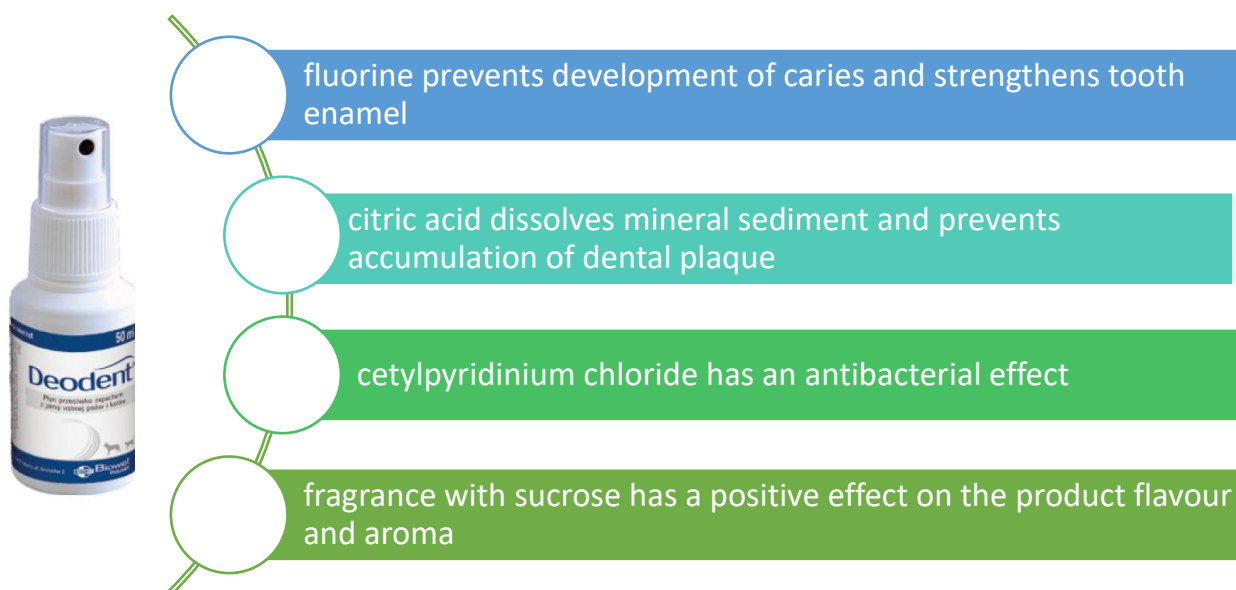

Deodent

Liquid formula for eliminating bad breath in cats and dogs

Deodent – cleans and protects teeth, and eliminates bad odour from the mouth of cats and dogs.

Properties of the product ingredients:

Deodent

Liquid formula for eliminating bad breath in cats and dogs

Ingredients

Citric acid, sodium fluoride, cetylpyridinium chloride, saccharin, fragrance, distilled water

Characteristics

Gives your pet clean and healthy teeth, neutralizing bad breath. Fluoride prevents dental caries and strengthens tooth enamel. Citric acid dissolves mineral plaque. Fragrance and saccharin enhance flavour and aromatic characteristics of the product.

Indications

Eliminating unpleasant odour from the mouth. Teeth cleaning and care.

Directions for use

Spray teeth and gums with the product brought to room temperature. It is enough to press the dispenser 1 to 3 times for each side of the mouth. In case of animal hypersensitivity to spraying, moisten a cotton pad with the product by pressing the dispenser 3-5 times and apply to teeth by rubbing. Use the product after each meal. Use the product daily to keep the teeth clean and healthy.

Storage

Keep at a temperature not exceeding +25°C. Protect from light. Do not freeze.

Warnings. Keep out of the reach and sight of children.

Shelf life 18 months

Available container. Spray bottles containing 50 ml of the product
